

## MATH 1111, 1112, and 1113

Recent policy shared with us through the University System of Georgia has required that we reconsider the way that we handle credit for MATH 1111, 1112, and 1113. Why, might you ask?

Credit in some of these courses is actually overlapping content. So, we have to be careful on what classes you are capable of taking.

### IF YOU NEED TO GET TO CALCULUS I

As you can see, MATH 1111 and 1112 are the two courses covered in MATH 1113.

This means that if you have credit for MATH 1111 OR 1112, you should not go to MATH 1113. There are other MATH outlets to go to. This is often dependent on major. Make sure to communicate with your major's advisor.

### MUTUALLY EXCLUSIVE ERROR

If you have credit for MATH 1111, you should then take MATH 1112, if you need to get to Calculus I. If you try to sign up for MATH 1113, you will get an error message titled "MUTUALLY EXCLUSIVE." That is because you are signing up for a course that has duplicate content.

### TRANSFER CREDIT

IF YOU TOOK A COURSE THAT IS EQUIVALENT TO MATH 1113 PRECALCULUS AT ANOTHER INSTITUTION- It will transfer to KSU as MATH 1112. Trigonometry works as the prerequisite to any courses that allow MATH 1113.

IF YOU TOOK MATH 1111 AND 1113 AT ANOTHER INSTITUTION- Your credit will transfer as MATH 1111 and 1112, covering Precalculus and still giving you the same credit hours completed.
