QUESTION: how could I change it? I wanted to do computer science
ANSWER: You can get help from CCSE Advising here- https://orientation.kennesaw.edu/student-resources.php

QUESTION: I changed my major to nursing so how do I form my schedule from there
ANSWER: Take a look here- https://orientation.kennesaw.edu/student-resources.php

QUESTION: I took precalc in my senior year of high school. Do I have to take it again this year?
ANSWER: There are some differences between high school precalc and college level Precalculus, so it really depends on your HS data and whether it meets the requirement for a certain class or you might want to email your advisor about the ALEKS Math placement exam.

QUESTION: When it comes to what math class to take, is the required ACT score the composite score or just the math ACT score?
ANSWER: The MATH portion of your ACT score

QUESTION: Hello so when we are signing up for the bio class do we have sign up for the lecture AND the lab ? Or just the lecture?
ANSWER: You do need to take both lecture and lab, but you also have the ability of signing up for lecture and then continuing to look for a lab seat.

QUESTION: sorry kind of off topic, but I have already completed the housing and I have my room picked out with roommates. how do I know if I live on the Kennesaw campus or the marietta campus?
ANSWER: Reach out to Housing and they can share more insight! Unfortunately, we can’t see housing information like that- https://ksuhousing.kennesaw.edu/

QUESTION: So is completing Calc I required for calc-based physics, or can we take Calc I while taking calc-based physics?
ANSWER: PHYS 2211/L Calc based Physics requires that you complete MATH 1190 prior to taking Physics.

QUESTION: Where can i find a list of the required gen ed classes?
ANSWER: Take a look at your DegreeWorks page! Or, the KSU Catalog. http://catalog.kennesaw.edu/preview_program.php?catoid=51&poid=6018

QUESTION: can you take chem and bio at the same time
ANSWER: Yes! You can take them in the same semester if you’d like to.

QUESTION: can I get higher placement through ALEKS like cal 3?
ANSWER: Unfortunately, ALEKS only goes to Calc I placement. Then, you have to start meeting the prerequisites with courses.

QUESTION: What are the benefits of taking a more advanced course? like calc over pre calc
ANSWER: Our main concern is starting in the right Math course for you. So, the advantages for a specific class will be based on what your placement suggests. Talk to your advisor for more one on one info!
QUESTION: What are some of the general social sciences and history classes we need to take to graduate?
ANSWER: There are many options for each box to choose from. So, rather than sharing random options, I want you to see the list- http://catalog.kennesaw.edu/preview_program.php?catoid=51&poid=6018

QUESTION: Would you be able to join a learning community if you have a minor outside of CSM?
ANSWER: Yes! As long as your major is in the College of Science and Mathematics, Learning communities are options. Having a minor outside of CSM is fine!

QUESTION: What if I took dual enrollment classes, and my completed/transfer credits aren’t in the system yet?
ANSWER: We have to operate off of courses that are “in” the system. But, if they are completed and the prereq for a math or science course, you can email your advisor with an unofficial transcript copy to look into overrides to go ahead and register for the next courses.

QUESTION: I changed my major to nursing so how do I form my schedule from there
ANSWER: https://orientation.kennesaw.edu/student-resources.php

QUESTION: so for clarification, for bio, I should take a lecture and a lab?
ANSWER: The goal is to take lecture and lab in the same semester. If lab is full, then definitely try for at least lecture in Fall!

QUESTION: Do the labs have to be connected in some way (ie same professor) or can they be completely separate?
ANSWER: Can be completely separate from each other. No same day, professor, etc required!

QUESTION: I recently changed my major to Biology and I’ve emailed my advisor but haven’t gotten a response and I am not sure what exactly I should register for the first semester. What do you suggest I do?
ANSWER: In orientation season, we are often assisting students with orientation day support so emails can take a little time if it’s between these sessions (advisors work hard to have no more than a 2 business day turn around on emails). Email your advisor again today, if you haven’t heard back because today it’s your orientation day!- https://csm.kennesaw.edu/advising/csmnewstudents.php

QUESTION: If you are a mathematics major, do you have to take your classes on the marietta campus?
ANSWER: Don’t have to! But, because those majors are housed on that campus, you’ll eventually end up with Marietta campus options only for many courses. But for now, you can take classes at either campus!

QUESTION: I still do not understand exactly what a learning community is. Is it just a bundle of different science and math courses to put on your desired schedule? Please explain.
ANSWER: Great way of looking at it! They are bundles of classes that we’ve just pre-made for you. Grab a Learning Community, but really you’re getting multiple courses!

QUESTION: Is there a pre dent major or is it a minor? I haven’t seen anything about it?
ANSWER: Pre-dent is a way that you can identify yourself, regardless of major. But, most Pre-Dent students go with the Biology degree with a Pre-Professional track OR Biochemistry degree.
QUESTION: where can i know that my ap score had been sent to KSU?
ANSWER: You can email your advisor and we can see if the university has scanned it in yet. That, or reach out to CollegeBoard to ask if they have sent it in.
