

Adobe Spark Quick Start Guide

1. All KSU students have access to Adobe Spark; simply go to [Adobe Spark Homepage](https://spark.adobe.com) (spark.adobe.com) and click on "log in." You will then "login with school account" and put in your NetID and password.
2. For this competition, you will be creating a POST. Use the "View All" option or click the plus sign button to create a "Custom Size Graphic." Use the Standard size to create a square 1:1 option.

The image shows a vertical navigation menu on the left side of the Adobe Spark interface. The menu items are: the Adobe Spark logo (Sp), a plus sign in a blue circle, Home, Projects, Brands, and Libraries. A blue arrow points from a text box to the plus sign button. Below the menu is a 'NEW' button. To the right, a 'Select a size' dialog box is shown. A blue arrow points from a text box to the 'STANDARD' option in the dialog. The dialog shows 'Width' and 'Height' both set to 2560 px, with a 'Next' button at the bottom.

Select the plus sign in the blue circle and create a custom size graphic.

Use the "Standard" link to select the "Square" option.

3. Next, add photos, text, and graphics to illustrate why you love your CSM major.

4. When complete, save your graphic as a PNG or JPG file and submit it using the link on the CSM competition website.

When your graphic is complete, use the "Share" icon to save it as a PNG or JPG.

Use the icons on the side to add photos or text, use templates or layouts, and change colors or designs.
