

*EEBOB Seminar Series Spring 2015 Archive*

The Ecology, Evolution, Behavior, & Organismal Biology (EEBOB) seminar series focuses on biological topics at whole-organism and higher scales of organization. Speakers include KSU faculty, graduate students, & guests from other institutions.

**Jan 21<sup>st</sup>, 2015:** Silvia Newell, Wright State University

*Nutrient loading: the case for managing nitrogen*

**Jan 28<sup>th</sup>, 2015:** Stuart Borrett, University of North Carolina Wilmington

*Tracing the connections in ecosystems with network analysis: theory and application*

**Feb 4<sup>th</sup>, 2015:** Joey Shaw, University of Tennessee at Chattanooga

*Herbaria support and promote botanical research from field to molecular studies*

**Feb 11<sup>th</sup>, 2015:** Heather Sutton, Kennesaw State University

*Toxicity of ionic liquids to wetland and agricultural plants*

**Feb 18<sup>th</sup>, 2015:** Robert C. Paul, Kennesaw State University

*Sustainability @ KSU*

**March 4<sup>th</sup>, 2015:** Eric Gilbert, Georgia State University

*EIP: a novel antimicrobial agent derived from a marine invertebrate*

**March 11<sup>th</sup>, 2015:** J. Jeffrey Morris, University of Alabama Birmingham

*The invisible hand of the black queen: reductive evolution in the ocean and elsewhere*

**March 18<sup>th</sup>, 2015:** Timothy Menzel, Piedmont College

*When ant species compete...*

**March 25<sup>th</sup>, 2015:** Eric Albrecht, Kennesaw State University

*Hemorrhagic snake venom: solutions of destruction*

**April 1<sup>st</sup>, 2014:** Matthew Grober, Georgia State University

*The evolution and development of adult sexual plasticity*

**April 15<sup>th</sup>, 2014:** Daniel Warren, St. Louis University

*Life goes on: New insights into the physiology of anoxia tolerance in painted turtles*

**April 22<sup>nd</sup>, 2014:** Sean Richards, University of Tennessee at Chattanooga

*Occurrence and ecological hazard of pharmaceuticals in surface water*
