

Spring 2013 MBIG schedule. Fridays, 12-12.50pm, CL1010

Date	Speaker	Title	Affiliation	Host
1.11.13	Dr. Kathleen Salerno	"Transcriptional Regulation of Signaling Pathways During Nerve Injury."	University of Pittsburg, PA	Martin Hudson
1.18.13	No speaker			
1.25.13	Dr. Estella Quin-Chen	"Computer Modeling of Mitochondrial DNA Mutation During Tumor Growth."	Kennesaw State University, GA	Martin Hudson
2.01.13	Dr M. Shane Hutson	"Tissue fusion events during embryogenesis: microsurgery, mechanics and modeling."	Vanderbilt University, TN	Jonathan McMurry
2.01.13 CL2003 2-3pm	Frank Tolenko	"Innovative Persistence of the Somatopleure and the Origin of the Vertebrate Appendicular System"	Wesleyan University, CT	Marcus Davis
2.08.13	Lei (Ray) Zhong	"Developmental Role of Acetylcholine in a Regenerating Neuron."	Georgia State University, GA	Martin Hudson
2.15.13	Dr. Marcus Davis	"Autopods: they're not just for swimming."	Kennesaw State University, GA	Martin Hudson
2.22.13	Julie LeCher	"Zoonotic B Virus Infection: Deciphering Immune Responses and Viral Countermeasures in the Natural and Foreign Host."	Georgia State University, GA	Don McGarey
3.01.13	Dr Athula Wikramanayake	"The evolution of complex animals: Insights from comparative studies of Wnt signaling in marine invertebrates."	University of Miami, FL	Lisa Ganser
3.08.13	No speaker. Spring Break!			
3.15.13	Dr. Brock Grill	"How to build a synapse: molecular insight into axon termination and synapse formation."	Scripps Institute, FL	Martin Hudson
3.22.13	Dr. Ellen Moomaw	"Bicupin oxalate oxidase enzymology and computational tools to visualize and define 'function space' in the cupin superfamily."	Kennesaw State University, GA	Martin Hudson
3.29.13	Dr. Steve L' Hernault	"Looks Aren't Everything: What Nematode Sperm Are Teaching Us about Conserved Aspects of Fertilization."	Emory University, GA	Martin Hudson
4.05.13	Dr. Christopher Wyatt	"The development of the hypoxic ventilatory response."	Wright State University, OH	Martin Hudson
4.12.13	Dr. Scott Nowak	"Building a mammalian muscle, fly-style."	Kennesaw State University, GA	Marcus Davis
4.19.13	Dr. Martin Hudson	"Worm and stem cell models of Kallmann syndrome."	Kennesaw State University, GA	Jonathan McMurry
4.26.13	Dr. Sarah Fankhauser	"The role of immune inhibition during <i>Chlamydia trachomatis</i> infection."	Harvard Medical School, MA	Mark Anderson
5.03.13	Finals week. No MBIG
