

Ecology, Evolution, Behavior, & Organismal Biology (EEBOB) Seminar Series Spring 2020

The Ecology, Evolution, Behavior, & Organismal Biology (EEBOB) seminar series focuses on biological topics at whole-organism and higher scales of organization. Speakers will include KSU faculty, graduate students, and guests from other universities. Unless specified otherwise, seminars are held on Wednesdays at 1:25 - 2:15pm in the Clendenin Building, room 1010 (CL 1010), Kennesaw Campus.

Wednesday, January 15, 2020

Dr. Emily Kane, Department of Biology, Georgia Southern University

"Fish that suck, suck at swimming: Insights from studying integrated movements during prey capture in fishes"

Wednesday, January 22, 2020

Dr. Katie Stumpf, Department of Biological and Environmental Sciences, Georgia College & State University

"Grassland bird community responses to landscape changes"

Wednesday, January 29, 2020

Daniel Hoffman, Department of Earth and Environmental Sciences, Wright State University

"A game of hot potato in Lake Erie: Ammonium cycling and microbial community dynamics in a cyanoHAB-affected ecosystem"

Wednesday, February 5, 2020

Dr. David Hu, The George W. Woodruff School of Mechanical Engineering and the Department of Biology, Georgia Tech University

"Elephant trunks and the wombat's cube-shaped poo"

Wednesday, February 12, 2020

Dr. Aubrey Kelly, Department of Psychology, Emory University

"Processing social context: Insights from the neural social behavior network"

Wednesday, February 19, 2020

Dr. Dan Johnson, Warnell School of Forestry and Natural Resources, University of Georgia

"The critical role of hydraulics in plant function and survival"

Wednesday, February 26, 2020

Dr. Joshua Gibson, Department of Biology, Georgia Southern University

"Argentine ants of Georgia"

Wednesday, March 4, 2020

Dr. Matt Weand, Department of Ecology, Evolution, and Organismal Biology, Kennesaw State University

"After the alien invasion: The role of Chinese privet in riparian ecosystems"

Wednesday, March 11, 2020

Dr. De Anna Beasley, Department of Biology, University of Tennessee, Chattanooga

"Healthy Cities: What ants, cicadas, and fungi tell us about urban living"

All remaining EEBOB seminars for Spring 2020 were canceled. For more information, visit coronavirus.kennesaw.edu.
