

## Molecular Biosciences Interest Group (MBIG) seminar series Spring 2020

The Molecular Biosciences Interest Group (MBIG) seminar series will take place on Fridays at 1:25pm in the Clendenin building, room 1010 (CL 1010) on the Kennesaw Campus. All faculty, staff, students and Alumni are invited to attend.

**Friday, January 17, 2020**

Phaedra Corso, Kennesaw State, OVPR

*"Policy Research and the Application to Georgia Public Health Policies and Laws"*

**Friday, January 24, 2020**

Susan Smith, Kennesaw State, MCB

*"Prokaryotic Noxes: Bigger Hammers for Structure-function Basics."*

**Friday, January 31, 2020**

Gregory Stewart, Tetracore Inc.

*"Development of a real-time, molecular toxicity assay for ricin."*

**Friday, February 7, 2020**

Rebecca Donegan, Georgia Tech

*"The heme synthesis enzyme, coproheme decarboxylase, coordinates heme uptake and synthesis in mycobacteria."*

**Friday, February 7, 2020**

Dominic Qualley, Berry College

*"Gag (dis)order: structure and dynamics of a retroviral polyprotein"*

**Friday, February 21, 2020**

Duong Hao, Morehouse Med School

*"Purification and characterization of circadian clock protein complexes."*

**Friday, February 28, 2020**

Evelina Sterling, Kennesaw State

*"Opioids, Pregnancy, and Public Health"*

**Friday, March 6, 2020**

Marvin Whiteley, Georgia Tech

*"Probing bacterial social behaviors during polymicrobial infection"*

All remaining MBIG seminars for Spring 2020 were canceled. For more information, visit [coronavirus.kennesaw.edu](https://coronavirus.kennesaw.edu).
