

2013-2014 DISCRETE MATH SEMINAR (DMS)

Wednesday, August 28, 2013

Dr. Christopher Raridan, Clayton State University

"The Edge-Balanced Index Set of a Graph"

Wednesday, September 11, 2013

Dr. Sarah Holliday, Southern Polytechnic State University

"CNUC graphs"

Wednesday, September 25, 2013

Dr. Erik Westlund, Kennesaw State University

"The Elusive Hamilton Problem for Cayley Graphs"

Thursday, October 24, 2013

Evan Moore, Kennesaw State University

"Decomposition of Partially Minimal Cayley Graphs"

Wednesday, November 6, 2013

Hollis Brewer (Speaker 1)

"Total Efficient Dominating Sets in Cayley Graphs of Finite Abelian Groups"

Jonathan Fisher (Speaker 2)

"Precedent Based Voting Paradox in the Supreme Court"

Tuesday, December 3, 2013

Dr. Jeremy Brazas, Georgia State University

"Topologizing fundamental groups"

Wednesday, March 19, 2014

Dr. Brian Kronenthal, Kutztown University

"Cages, generalized quadrangles, and Moore!"

Wednesday, April 9, 2014

Dr. Erik E. Westlund, Kennesaw State University

"Directed Tree Decompositions of Cayley Digraphs with Word-Degenerate Connection Sets"
