

# Applied Mathematics in Industry Seminar

## One or Two Things I Wish I Had Learned In School Before Becoming a Data Scientist

February 10, 2021  
3:30 -- 4:30 pm

**Dr. Jay Lee** LeeScientist

Zoom Meeting ID:  
864 1251 9192

Passcode: mvB81D

In this seminar, a seasoned data scientist with applied mathematics background will share one or two things he wishes he had learned in school that he feels should help aspiring analytics professionals in the industry and future researchers in labs.

**Speaker:** Dr. Jay Lee (Data Scientist in Chief Data Office @AT&T) is a data scientist with over 10 years of experience in technology, logistics, and the federal

government. Before working as a data scientist, he served in the US Army, studied mathematical decision science at UNC, and obtained a Ph.D. in industrial engineering from Georgia Tech. He likes to talk about data science workflow, education, UNC hoops, and intermittent blogs at <https://joongsup.rbind.io>

*Everyone interested in data analytics is welcome. If you plan to attend, please complete a short survey [here](#). The speaker would like to leverage the survey result in his talk.*
