

Applied Mathematics in Industry Seminar

Career Journey as a Young Data Scientist

September 22, 2021
2:00 -- 3:00 pm

Zoom Meeting ID:
878 4169 4771

Passcode: N2J0Xf

Jessica Reyes

Abstract:

Join in to hear about recent alumni, Jessica Reyes, and her first year working as a Data Scientist at Equifax. This session will cover her journey to finding success in STEM as well as a live Q&A portion for current students who'd like to ask our alumni a question.

Jessica Reyes graduated from Kennesaw State University in Spring of 2020 with a Bachelor's Degree in Computational and Applied Mathematics and a minor in Statistics and Data Analytics. Jessica has a background in undergraduate research and internships where she has learned to utilize data to better solve today's real-world issues in fields such as education, public health, and in financial technology where she has started her career as a Data Scientist in Equifax's Rotational Development Program.
