

Applied Mathematics in Industry Seminar

Journey of a Data

Consultant

Kevin Jourdain

Preston Mesarvey

October 27, 2021

2:00 -- 4:00 pm

ROOM: J201L

Zoom Meeting ID:

857 0352 9120

Passcode: jXc6pJ

Abstract: Companies are becoming inundated with Data, which created a need of roles to be fulfilled in structuring, integrating and analyzing it. Former KSU grads will present how students with a STEM background can entertain the idea of becoming a data consultant.

Kevin Jourdain is a Technical Director at Improving. He has a passion for data and leadership. He leads the Modern Data practice and runs the Certification program, at the Atlanta office. He lives in the North Atlanta area with his wife Sarah and three daughters.

Preston Mesarvey is a Principal Data Services Consultant with Improving Enterprises. He is a passionate data engineer that has worked with all things data for twenty years. He is an active member of the local data community and has delivered presentations at industry conferences. He lives in the North Atlanta area with his wife Lindsay and two sons.
