

Applied Mathematics in Industry Seminar

Data Science at

Capital One

Dr. Daoying Lin

Director of Data Science at Capital One

April 6th, 2022
3:00 -- 4:00 pm

ZoomMeeting ID:
848 2628 4917

Passcode: Amis0406

Abstract: Dr. Lin is going to talk about her career in Data Science and share how Data Scientists are driving the heart of Capital One with Real-Time Ai products with a broad stack of technologies (Python, AWS, Snowflake, TensorFlow, etc) and algorithms, while in close partnership of software engineers, analysts, and product managers.

Dr. Daoying Lin is a Director of Data Science in Capital One, leading data scientists, product managers, and engineers building real-time Ai products to enable car shopping 100% online. She first joined Capital One in Dec of 2013 as a Statistician in Home Loan business. In 2017, she travelled west to experience Silicon Valley and a Unicorn Tech startup only to boomerang back to Capital One and Dallas in 2021. Daoying holds a Bachelor's degree in Applied Math and a PhD. of Mathematics with concentration in Statistics from the University of Texas at Arlington.
