

**November 14-15, 2020**

# **Workshop on Methods in Nonlinear Analysis**

**Venue: Zoom (a link will be shared via email)**

## **Speakers**

**Professor Alfonso Castro**  
Harvey Mudd College

**Professor Evans Harrell**  
Georgia Tech

**Professor Ratnasingham Shivaji**  
University of North Carolina at Greensboro

A series of lectures will be delivered by the featured speakers on topics that include topological and variational methods for nonlinear PDEs, as well as differential equations on quantum graphs. Up-to-date details on the workshop can be found at the dedicated website <https://csm.kennesaw.edu/mathematics/events/methods-nonlinear-analysis/index.php>.

**Registration is required and free!**
